SUMMARY

Full-Stack Developer with hands-on expertise in Python, Django, React.js, and Node.js, currently completing an MCA at Lyallpur Khalsa College of Engineering. Experienced in building RESTful APIs, web applications, and managing end-to-end digital products. Adept at both front-end and back-end development with a strong foundation in data structures, algorithms, and software engineering principles. Seeking a software engineering role to contribute to scalable, impactful products.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML5, CSS3, SQL

Frameworks & Libraries: Django, Django REST Framework, React.js, Next.js, Pandas, NumPy, Jupyter, Matplotlib, Bootstrap, Tailwind CSS

Databases: MySQL, SQLite, MongoDB, REST API design

AI/ML Tools: OpenAI Whisper, SpaCy, NLP Pipelines, Large Language Model Integration

Tools & Platforms: Git, GitHub, VS Code, Postman, Adobe Photoshop, Canva

Concepts: RESTful APIs, OOP, MVC Architecture, Responsive Design, Agile Development, Speaker Diarization

EXPERIENCE

GK Plastic Industries

Jalandhar, Punjab, India

Catalogue Designer & Website Executive

July 2024 – February 2026

- Designed and maintained the company's product catalogue and website, improving digital presence and supporting B2B client engagement.
- Created high-quality product image advertisements and promotional design materials using Adobe tools, reducing external design costs.
- Managed website content updates, ensuring up-to-date product listings and accurate information for over 100+ product SKUs.

PROJECTS

AI Chat-Bot | Python, Google Gemini API, Streamlit, Flask

- Built an AI-powered chatbot integrating the Google Gemini API for real-time data fetching and intelligent query responses.
- Developed an interactive front-end using the Streamlit framework and served the application via a Flask backend.

Doctor Appointment Booking & Review Web App | React.js, Tailwind CSS, MongoDB

- Designed and developed a full-stack doctor appointment booking platform with patient reviews, built on the MERN-adjacent stack.
- Implemented responsive front-end using React.js and Tailwind CSS; built RESTful backend APIs with Express.js.

AI Meeting Notes Generator | Python, Next.js, OpenAI Whisper, GPT-4o, Django ORM

- Engineered an end-to-end meeting intelligence system that automatically converts audio recordings into structured documentation using speech recognition and NLP.
- Integrated OpenAI Whisper for speech-to-text transcription and PyAnnote for speaker diarization to identify individual speakers with accurate timestamping across multi-speaker meetings.

EDUCATION

Lyallpur Khalsa College of Engineering

Jalandhar, Punjab, India

Master of Computer Applications (MCA) – Computer Science

July 2024 – June 2026

DAV College, Jalandhar

Jalandhar, Punjab, India

Bachelor of Computer Applications (BCA) – Computer Science

September 2021 – May 2024

ADDITIONAL INFORMATION

Languages: English (Professional), Hindi (Native), Punjabi (Native)

Interests: Open Source Contribution, Software Architecture, UI/UX Design, Competitive Programming
